Dubai Maritime City signs integrated facilities management contract with Imdaad

Three-year agreement to deliver quality-driven FM solutions to marine companies

March 16, 2017 -Dubai Maritime City, the sole specialized maritime cluster in UAE that covers all marine industry needs under one umbrella, had recently signed a three-year contract worth approximately AED 4 million with Imdaad, the GCC's leading integrated facilities management (FM) company based in Dubai.

Under the terms of our agreement, Imdaad will deliver integrated FM services to Maritime Business Center Building (MBC). The new partnership illustrates the multi-awarded FM Company's proven capability to roll out quality-driven integrated FM solutions designed to lessen costs, improve facility functions and asset management, and achieve streamlined operations and standardized approach.

Jamal Abdullah Lootah, CEO, Imdaad, said: “We are excited by this latest strategic cooperation with Dubai Maritime City. Gaining the trust and confidence of one of the world’s major maritime business centers is a noteworthy achievement and strongly reflects our strengths, professionalism, and proven ability to deliver unique solutions tailored for the challenging environments of the shipping and O&G industries.”

“Our partnership does not only reflect our common commitment to improve productivity in a cost-efficient manner while maintaining higher service levels, but is also a major step forward for us at Imdaad as we strive to establish our presence in different important economic sectors. We look forward to a fruitful collaboration with Dubai Maritime City and the accomplishment of our set goals,” added Lootah.

“At Dubai Maritime City we strive to capitalize on the strengths of Dubai as a regional and global maritime hub as well as contribute to the emirate’s efforts to create a dynamic urban lifestyle for the maritime community. This can be achieved through the help of our partners in various components of our operations. We are confident that Imdaad will deliver superior integrated FM solutions according to our long-term strategy of providing seamless FM services to ensure safe and comfortable work environments for all employees and stakeholders,” concluded **Mr. Ali Al Suwaidi, General Manager Dubai Maritime City L.L.C.**
