

# Dubai Maritime City Leases Prime Ship Repair Plot to Premier Marine Engineering L.L.C.

23 February 2017

**D**ubai Maritime City LLC (DMC) is a specialized maritime cluster in all UAE and GCC that includes infrastructure, regulation, diverse land use and facilities for maritime industrial development. With a parameter of 249 hectares it covers all the marine

industry needs such as ship repair, yacht manufacturing, workshops, ware house, offices, ship lifts, marine supplies, engineering and technical expertise.

Considering the current challenging business environment within the marine industry, DMC still remains to be popular harbor for the marine companies to setup and operate. Its strategic location, logistics and support of DMC Management for businesses to grow especially in the ship repair plots that helps other intermediate operators like supply chain management and specialized services making it self-sufficient industry.

On 12<sup>th</sup> Feb 2017, Dubai Maritime City has signed Musataha agreement with Mr. Hemant Tandon, Managing Director of Premier Marine L.L.C. ('Premier Marine') a leading ship repair company in the field of fabrication, dry docking, ship repair, engineering maintenance services, for Ship Repair Plot SR-3A. The plot, spans across an area of 58,696.46 square foot. The company is believed to have been drawn to the site's good location, exposure and immediate access to facilities that would support in expanding their growing business and operations.

Premier Marine has been one of the promising companies in marine, oil & gas, mechanical, ship repair and conversion sectors. With its experienced and dedicated personnel, the company has been providing a highly reliable and qualitative service to its customers over the past years.

Dubai Maritime City (DMC) thanks Premier Marine and acknowledges their confidence for choosing to expand their business in DMC. DMC values their business and stands to support in their start up, growth and success.
